### **January Product Features**

Be sure to visit the Online Store to take advantage of reduced rates for members and other featured products related to education and membership.

#### ***AACN-AANN Protocols For Practice***

AACN-AANN Protocols for Practice: Monitoring Technologies in Critically Ill Neuroscience Patients provides clinicians at the point of care with the latest research findings in patient care in a format that is easy to understand and integrate into clinical practice. Each protocol guides clinicians in the appropriate selection of patients, use and application of management principles, initial and ongoing monitoring, discontinuation of therapies or interventions, and selected aspects of quality control.

#### ***Comprehensive Neuro Assessment***

The Comprehensive Neuro Assessment DVD, from Adventures in Neuroscience, presents an assessment of neuro patients across the continuum of the lifespan. This comprehensive DVD includes actual case studies and assessment chapters, such as the purpose of the exam, level of consciousness, assessment scales, pupils, cranial nerve exam, motor and sensory exam, coordination and gait, reflexes, pediatric patient exam, and differential exam/case studies.

### **Educational Opportunities**

Watch the AANN Web site and your inbox for an upcoming Webcast, featuring stroke education. More details to follow.
