CNRN Review Course

Friday, August 14, 2009

8 am–5 pm

AANN National Office

4700 W. Lake Ave.

Glenview, IL 60025

Jeanne Clancey, MSN RN CNRN

Members: \$170*

Nonmembers: \$200*

** Includes lunch*

Are you preparing to take the CNRN examination? If so, you may benefit from AANN's 1-day CNRN Review Course, to be held in Glenview, IL, conveniently located near downtown Chicago and O'Hare International Airport. Reflecting the CNRN examination matrix, this course is designed to help participants with their studies. Participants should come to the course with functional knowledge of most areas identified in the CNRN examination outline.

The *AANN Core Curriculum for Neuroscience Nursing*, 4th Edition will be used for the class.

This is a comprehensive clinical resource for the practicing neuroscience nurse. The book is divided into three parts: foundations of neuroscience nursing, specific neuroscience topics, and neurologic issues across the continuum. Receive 10% off the *Core Curriculum* if purchased when registering for course.

Please note: Completion of the CNRN Review Course does not guarantee a passing grade on the examination, but the course can help focus and supplement your individual study.

Conference Recordings

Continuing education (CE) and state-of-the-art neuroscience nursing expertise are combined in one package with the AANN conference recordings!

Just in time to respond to the need for cost-effective educational opportunities and CE offerings, AANN is providing recordings from the AANN 41st Annual Educational Meeting in Las Vegas for purchase. If you were unable to attend the meeting or would like to hear a session that was held at the same time you were attending another session, these recordings will help you take advantage of all the knowledge shared at this year's meeting. Please visit www.fleetwoodonsite.com/index.php?cPath=203_204 to view details of content and to purchase.

A few examples of recordings available include

- individual specialty presentations, such as stroke, spine, trauma, and geriatric, to name a few (\$20–\$80 each, including CE)
- individual concurrent sessions (\$14 each, including CE)
- all sessions as MP3 files (\$199, including CE).

Comprehensive Neuro Assessment DVD

The *Comprehensive Neuro Assessment DVD* presents an assessment of neuro patients across the lifespan continuum. This comprehensive DVD includes actual case studies and assessment chapters such as the purpose of the exam, level of consciousness, assessment scales (including the Glasgow Coma, Abbreviated NIH, and FOUR Score scales), pupils, cranial nerve exam, motor and sensory exam, coordination and gait, reflexes, pediatric patient exam, and differential exam/case studies.
