

International Corner

10th Quadrennial Congress of the WFNN in Toronto

Question

Iceland, Croatia, and India....what do they have in common with the AANN member?

Answer

They have all joined you in being members of the World Federation of Neuroscience Nurses (WFNN).

Within this past year, your colleagues in Iceland, Croatia, and most recently India have become member organizations of WFNN and will be joining the 24 countries already part of the international community that looks to WFNN as the only global organization devoted solely to the professional education and interests of neuroscience nurses.

Meeting May 23–28, 2009 in Toronto, Canada, the 10th Quadrennial Congress of the WFNN will be showcasing an international menu of education programs, poster sessions, networking opportunities, mentoring venues, and International Career Fair. The 2009 Congress scientific program will include presentations from the following 21 countries, representing six continents.

Australia	Denmark	Scotland
Belgium	Finland	Serbia and Montenegro
Brazil	India	South Korea
Cameroon	Iran	Sweden
Canada	Italy	United Kingdom
Colombia	Japan	United States
Cuba	Netherlands	

Join your colleagues from around the world in Toronto, May 23–28, 2009. For more information, visit www.wfnn2009congress.ca.
